RESPONSE TO RESTRICTION REQUIREMENT

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the Restriction Requirement dated October 29, 2002, Applicants provisionally elect with traverse Group II, Claims 6-12 directed to an apparatus classified in Class 99, subclass 325. Applicants make this election based on the understanding that Applicants are not prejudiced against filing one or more divisional applications that cover the non-elected claims.

Applicants traverse the outstanding Restriction Requirement as the outstanding Restriction Requirement has not established that an undue burden would be required if the Restriction Requirement was not issued and if all the claims were examined together. More particularly, MPEP §803 states:

If the search and examination of an entire
application can be made without serious burden, the
Examiner must examine it on the merits, even though it
includes claims to independent or distinct inventions.

RECEIVED
DEC - 2 2002
TC 1700 MAIL ROOM

In the present application no undue burden has been established if each of the claims were examined together. In particular, as claimed, the specific method of grilling foods would require the specific structure of the article. In contrast, the present restriction requirement subjects the Applicants to the added financial burden of prosecuting Claims 1-5 and Claims 6-12 in separate proceedings.

Accordingly, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-12 be conducted.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
